

FJR10K Series Joystick

Feature:

- 1.Long Lifespan
- 2.High Precision
- 3.Pleasant Tactile Feel

Application:

- Game Controller
- Drone Controller
- Handheld Gimbal

Mechanical Characteristics

Operation Angle of Lever	26°
Operation Force of Lever	12±5mN.m
Accuracy of Reset Position of Lever	±3°

Endurance Characteristics

Number of Cycles	2,000,000 cycles
------------------	------------------

Electrical Characteristics

Total Resistance	10K Ω ±20%
Rated Power	0.0125W
Rated Voltage	AC 50V/DC 5V
Noise	300mVp-p less
